SHONEN JUMP ADVANCED

Story Thus Far

One day, something destroyed most of the moon.

Our new teacher is a creature who plans to destroy the world...?!

Koro Tribune

April Issue

Published by: Class 3-E Newspaper Staff

A mysterious creature showed up in our junior high classroom claiming that he had attacked the moon and promising to destroy the earth next March. And then...he took over as our teacher. What the-?! Faced with a creature beyond human understanding that no army could kill, the leaders of the world had no choice but to rely on the students of Kunugigaoka Junior High, Class 3-E to do the job. For a reward of ten million dollars... SIGN ME UP!! Will the students of the so-called End Class, filled with losers and rejects, be able to kill their target Koro Sensei by graduation...?!

Koro Sensei

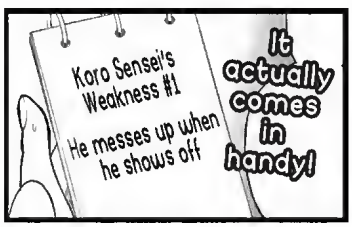
A mysterious octopus-like creature whose nickname is a play on the words "koro senai," which means "can't be killed." He is capable of flying at Mach 20 and his versatile tentacles protect him from attacks and aid him in everyday activities. Nobody knows why he wants to teach Class 3-E, but he has proven to be an extremely capable teacher.

Kaede Kayano

Class E student. She's the one who named Koro Sensei. Sits at the desk next to Nagisa, and they seem to get along well.

Nagisa Shiota

Class E student. Skilled at information gathering, he has been taking notes on Koro Sensei's weaknesses.



Ryoma Terasaka

Unsuccessfully used Nagisa in a dangerous bomb attack on Koro Sensei, and ended up being severely scolded for it. Doesn't take his studies very seriously.

Karma Akabane

Class E student. A quick thinker skilled at surprise attacks. Succeeded in injuring Koro Sensei a few times.

Now he's joined the city's Junior High baseball team!

Congratulations!

Known as "Slippery Sugino" because of his breaking balls that slip past the batter. The team's starting pitcher. He loves that but hates his nickname.

Tomohito Sugino

Class E student. Tried to assassinate Koro Sensei using a baseball (yeah, a baseball). It didn't work out too well, but he rediscovered his love of the game!

Tadaomi Karasuma

Member of the Ministry of Defense. The Class E students' P.E. teacher. Also in charge of managing assassins sent in from the outside.

Manami Okuda

Class E student. Receives excellent grades in science and tried to poison Koro Sensei. He subsequently taught her the importance of communication skills in everyday life and assassination attempts.

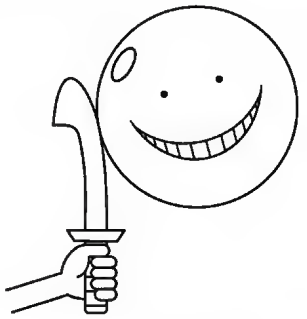
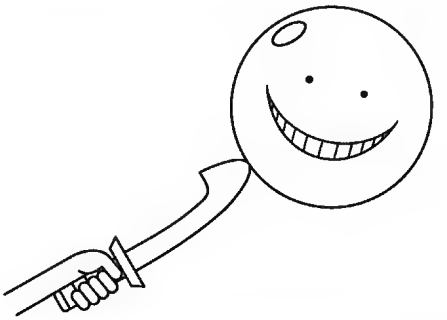
Assassination Badminton Basic Rules

There are only two ways you may touch the ball.



The Slash, in which you strike the ball with the blade of the knife.



The Lunge, in which you strike the ball with the tip of the knife.

Rules for Offense

- One point if the ball falls into the opponent's field through a Slash.
- Three points if the ball falls into the opponent's field through a Lunge.

Rules for Defense

- You may only hit the ball three times using a Slash per turn.
- You may hit the ball as many times as you wish with a Lunge.

- The opposing team will get the ball if you touch the ball with anything but a Slash or a Lunge. You may hit the ball as many times as you wish with a Lunge.
- You need a lot of skill to successfully strike the moving ball with a Lunge, so it is regarded as a more advanced technique than a regular badminton Strike.

I MISSED THE TRAIN BECAUSE I WAS BUYING CANDY.
I'LL JUST BE A CLING-ON HERE UNTIL WE REACH THE NEXT STATION.
DON'T WORRY.
I'M USING MY CHAMELEON ABILITY...

WELL, THAT MAKES IT ALL BETTER ...!!

PHEW. THAT WAS TIRING.
IT'S NOT EASY TRAVELING INCOGNITO. I BLAME THE BACKPACK.

WHOOPS.

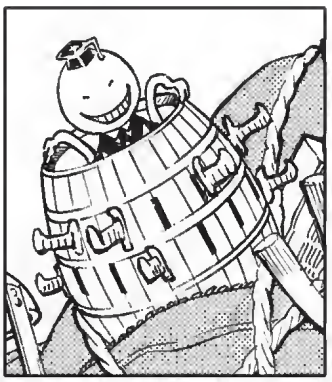
HEH HEH HEH.



Pop-up KORO Sensei

A classic party game that shows just how difficult it is to kill him. A school trip must-have.

CURVE RULER

The perfect tool to draw curves, which are difficult to execute freehand. The best types are the ones that have an edge on both sides. A school trip must-have.

Devil's Tongue Jelly

Boil it and put some miso on it. Stir fry it with mildly spicy seasonings. Drop it in a broth, so the flavor settles in. A school trip must-have.

HUH?
NEXT STOP, YASAKA SHRINE!

The following is a collaboration manga with Shuichi Aso, creator of *Saiki Kusuo No Sainan* (*The Mishaps of Kusuo Saiki*). This collaboration came to be because we share the same hometown. Aso Sensei is famous for creating great manga, but I believe this is his best work so far. I'm proud to be from the same town as him.

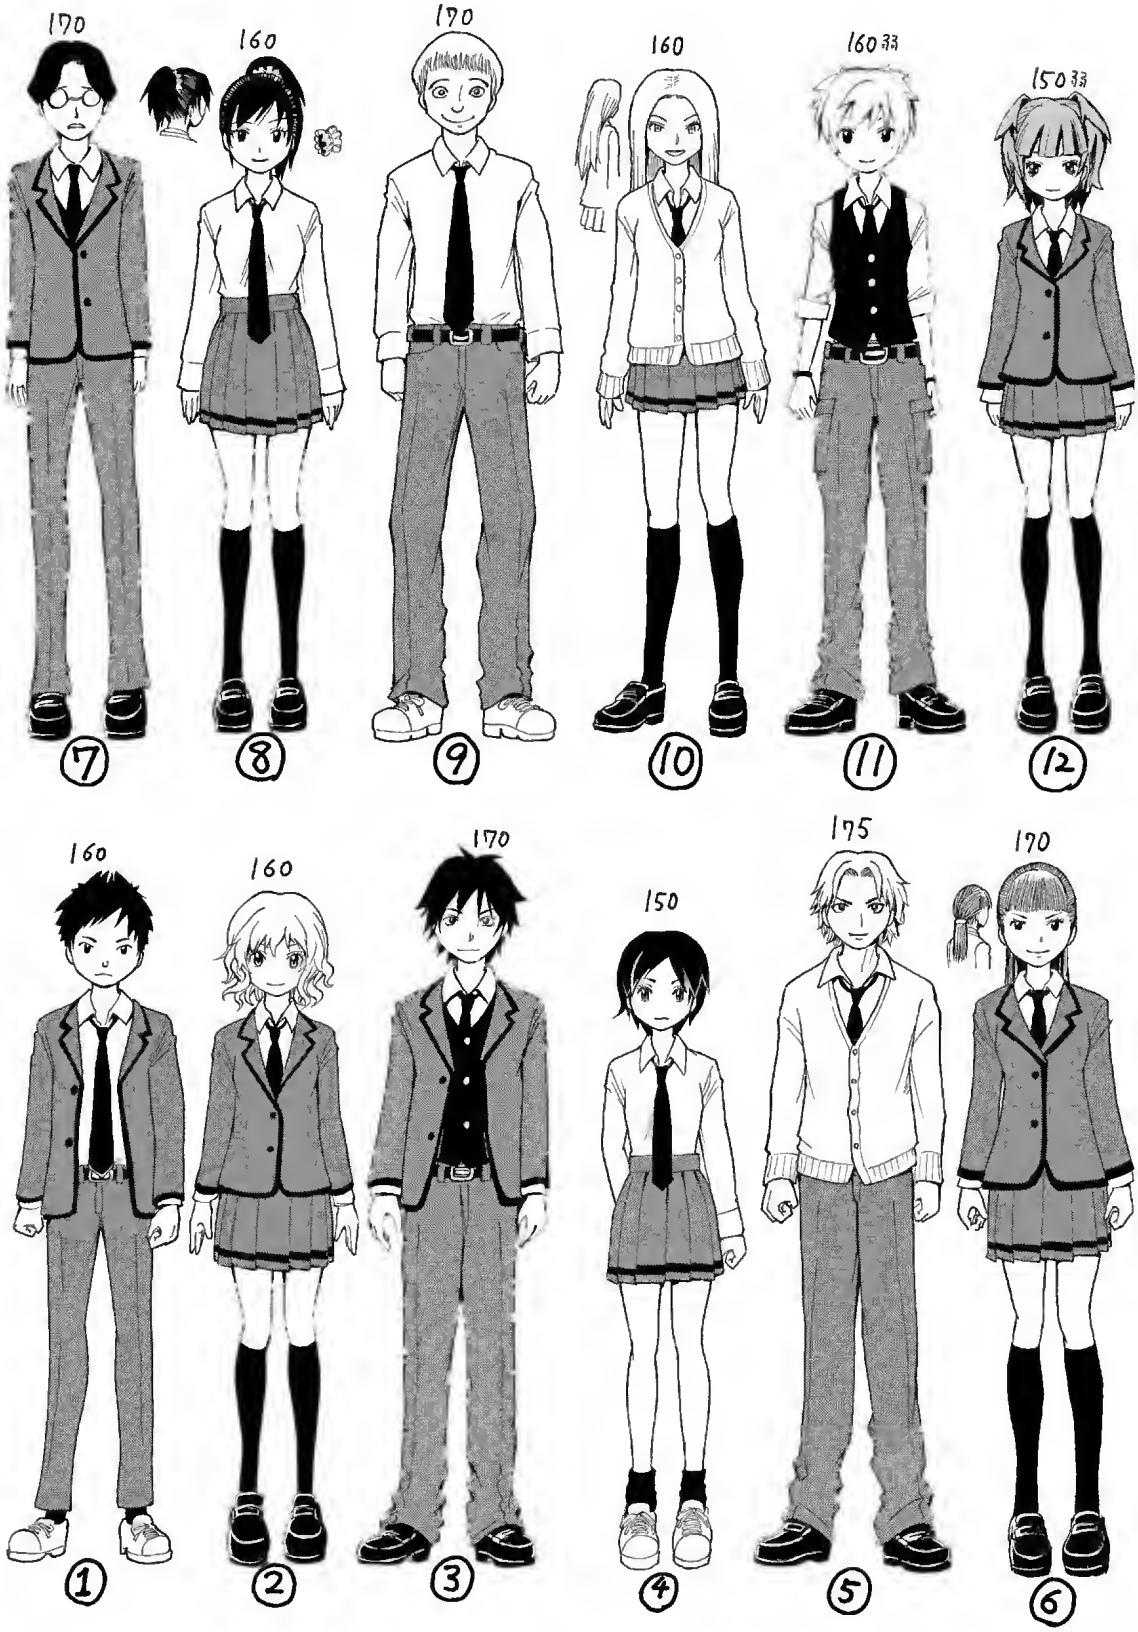
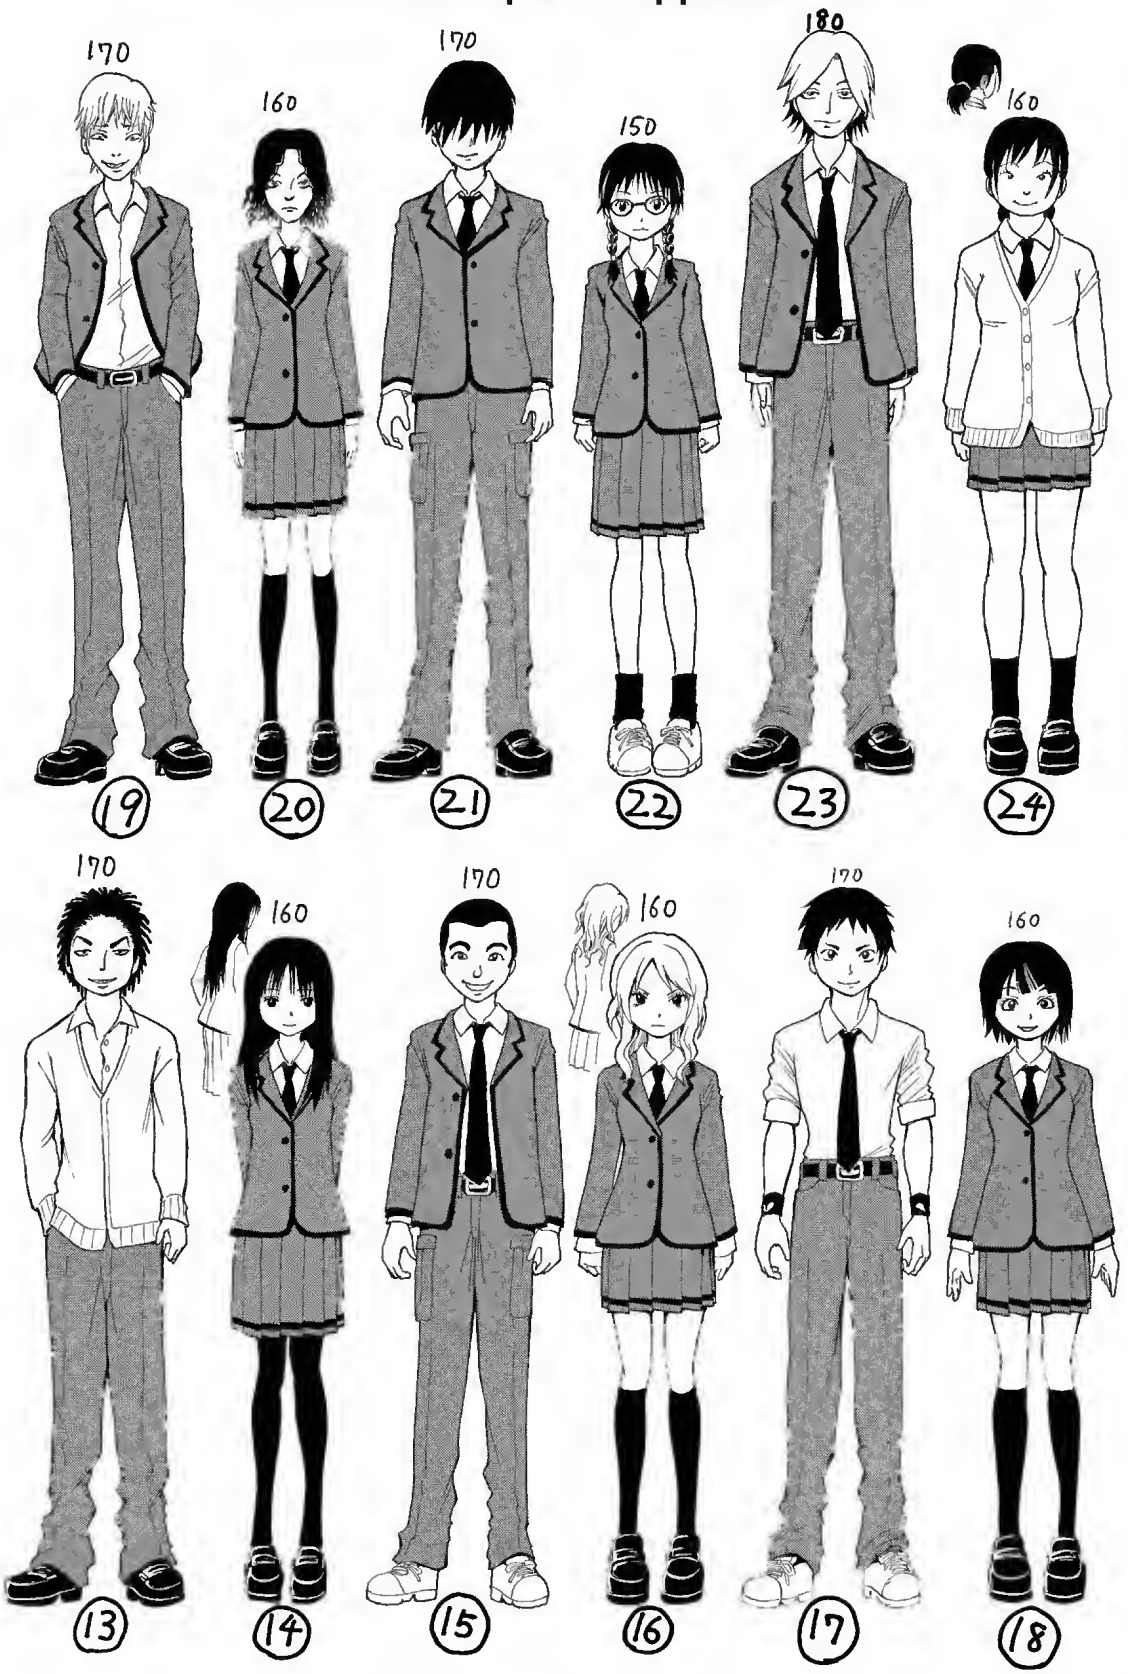
Character Designs

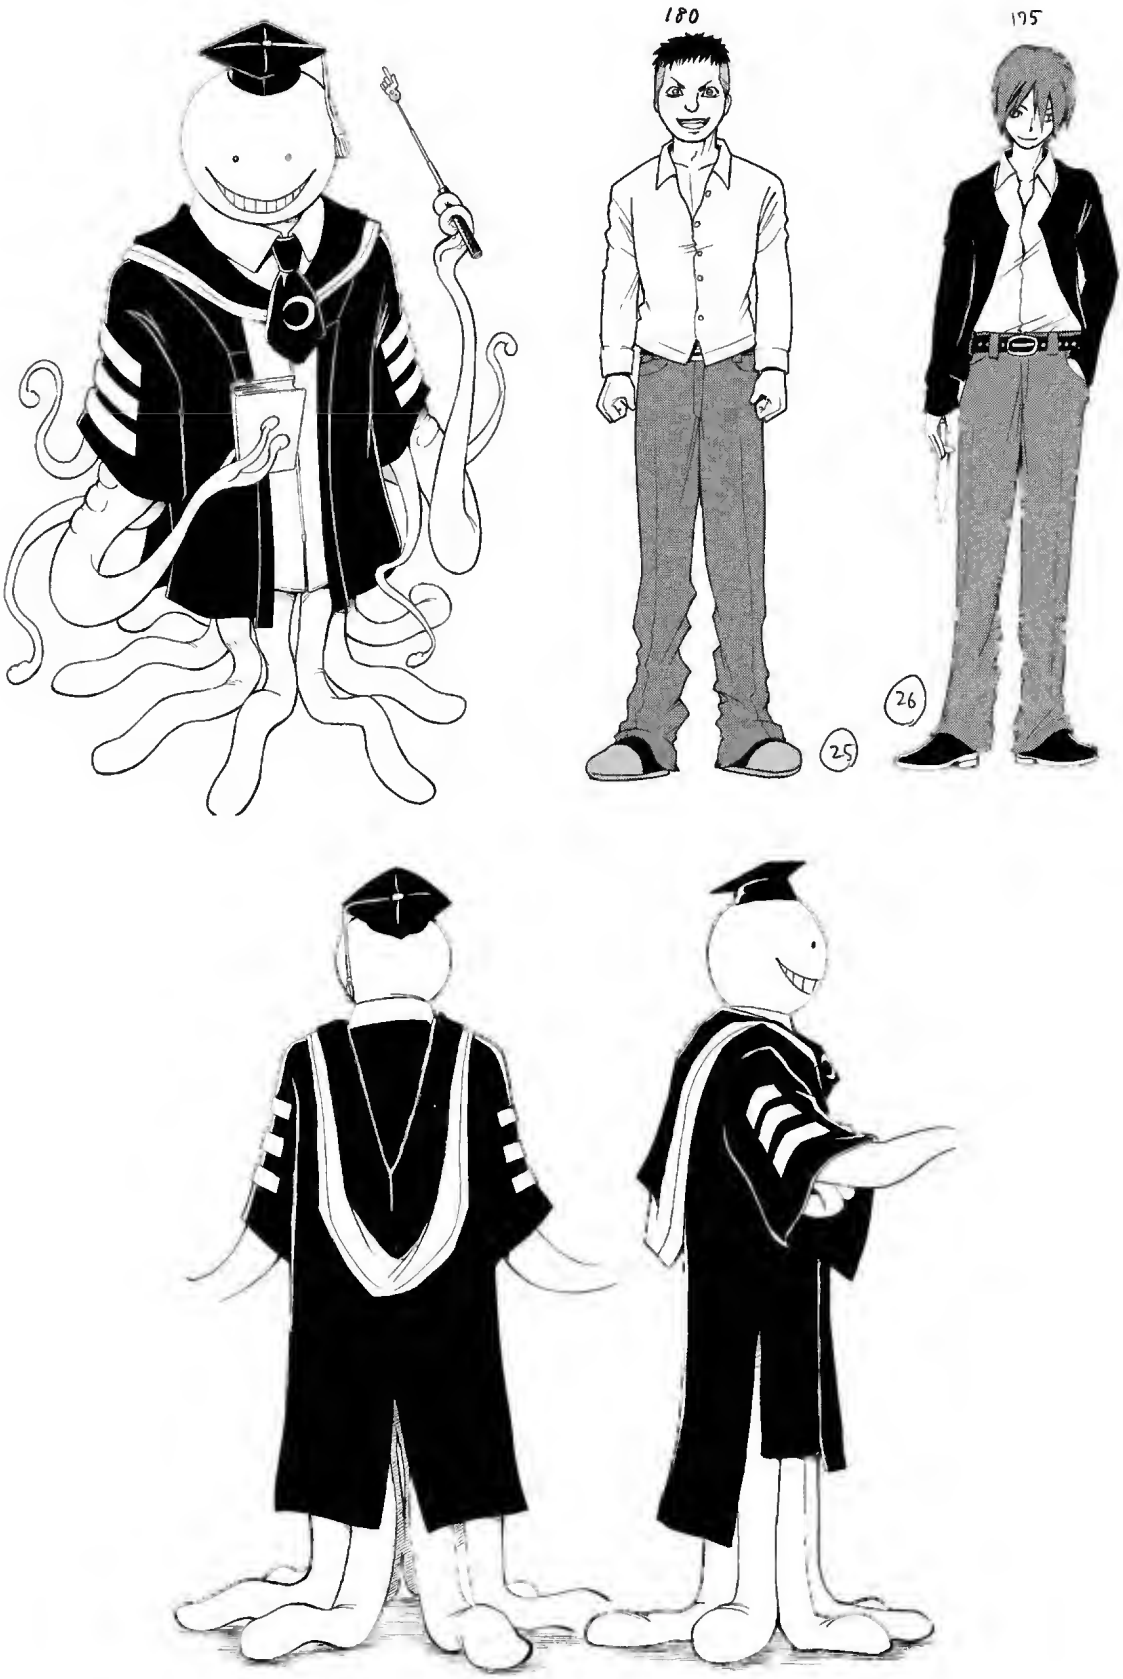
This is the illustration we use for the clothing and tones of the main characters. Their seating arrangement is also written here.



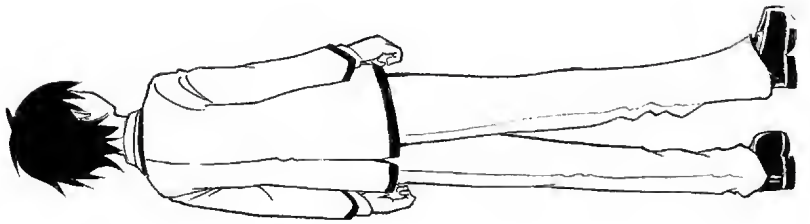
This is a story about the whole class, so creating a character sheet is a must. Many of the characters only appear as bit players, so I try to be careful not to give them too unique an appearance.

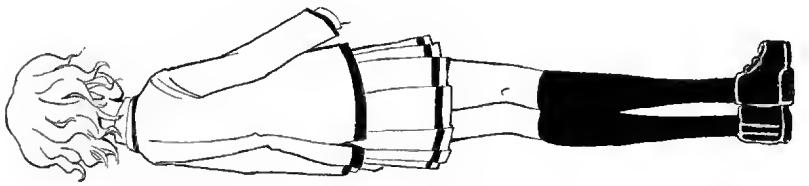


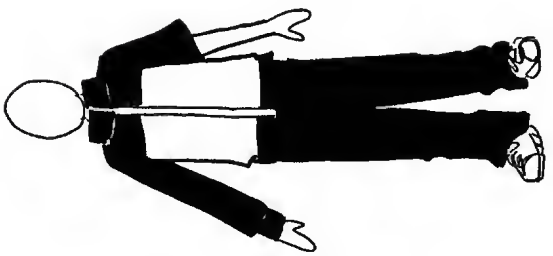
Koro Sensei has shoulders now!!
Some of the details of the characters
change as the story unfolds.

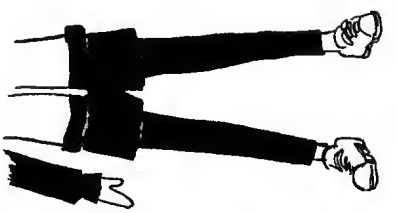


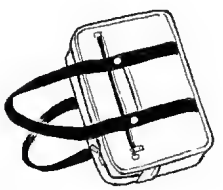
Props and whatnot. My assistants and I each have a copy of these files.

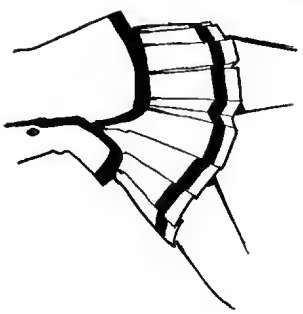












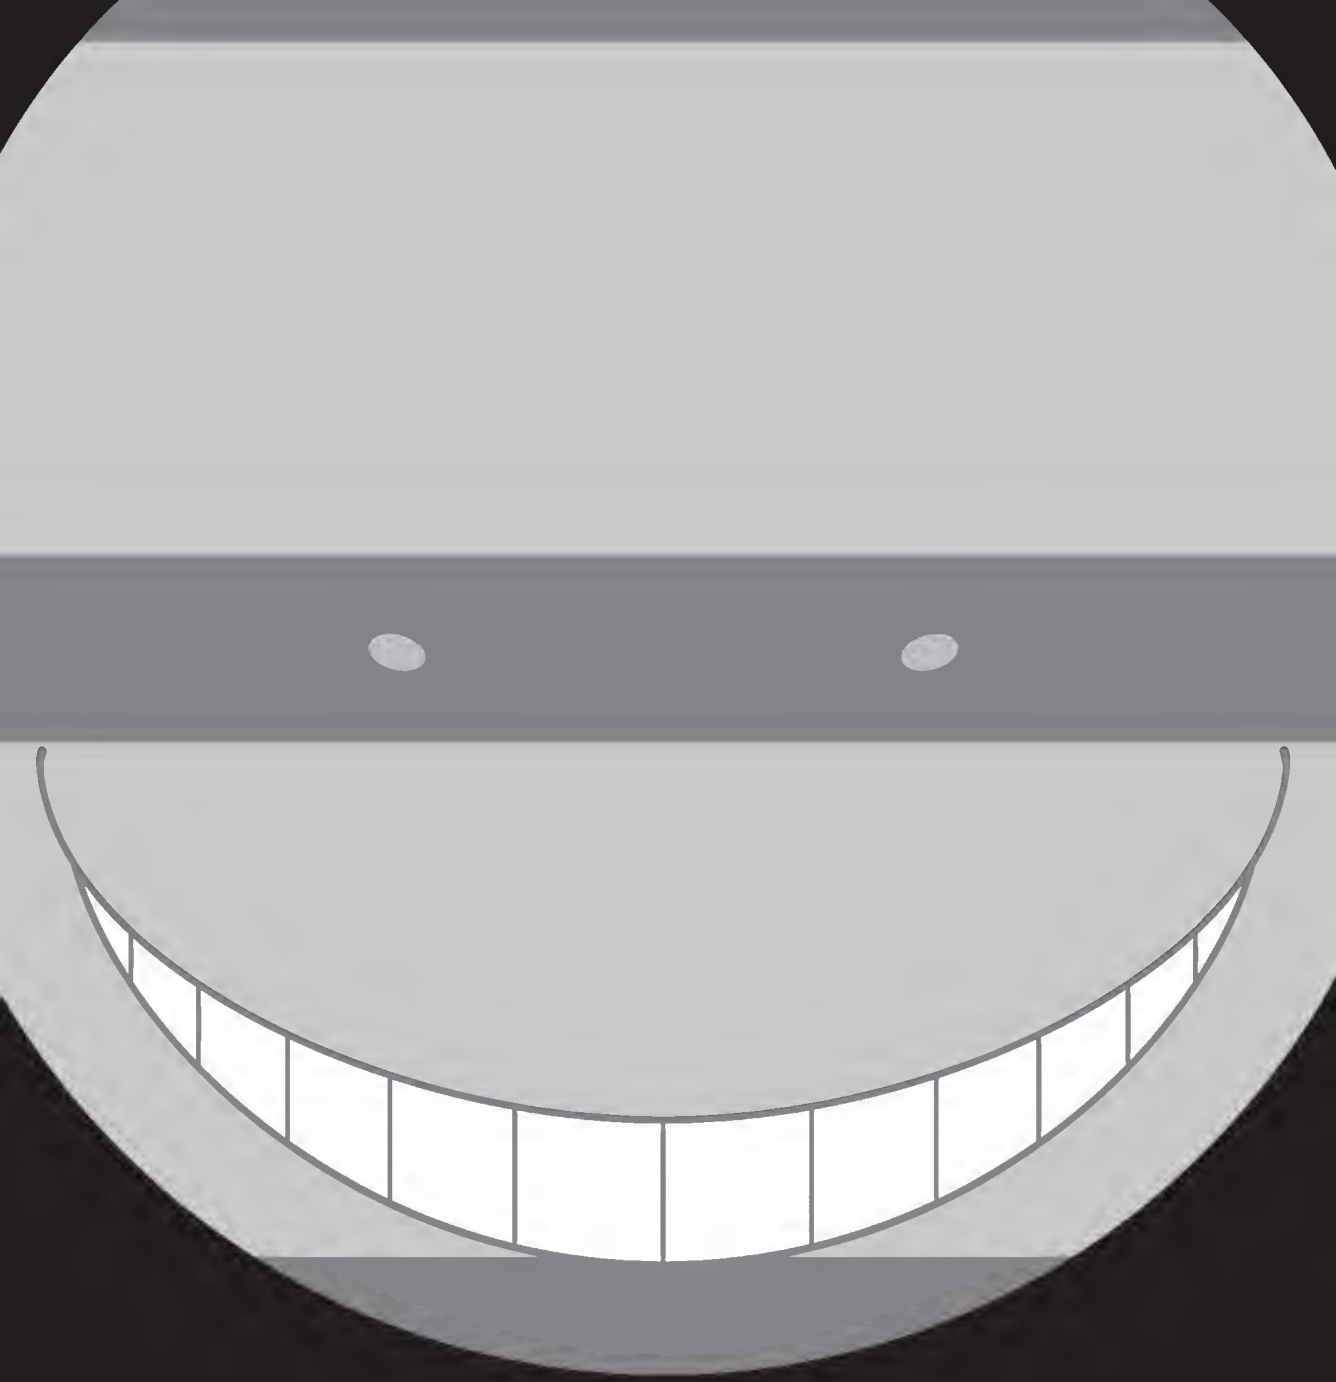
Vol. 1 was picked up by more people than I expected. I just can't thank you enough for that!

But what I write about in this series won't change based on sales. It'll be a story about the relationship between Koro Sensei and his students within the time frame of one school year.

I hope you're looking forward to reading about the students' school days...and imagining their future after they graduate.

—Yusei Matsui

Yusei Matsui was born on the last day of January in Saitama Prefecture, Japan. He has been drawing manga since elementary school. Some of his favorite manga series are *Bobobo-bo Bo-bobo*, *JoJo's Bizarre Adventure* and *Ultimate Muscle*. Matsui learned his trade working as an assistant to manga artist Yoshio Sawai, creator of *Bobobo-bo Bo-bobo*. In 2005, Matsui debuted his original manga *Neuro: Supernatural Detective* in *Weekly Shonen Jump*. In 2007, *Neuro* was adapted into an anime. In 2012, *Assassination Classroom* began serialization in *Weekly Shonen Jump*.



When his face is covered with yellow and green stripes, he's mocking you. And when he really thinks you're an idiot...the stripes begin to revolve like a barber's pole.
